

Privacy Policy

Cankarjev dom collects personal information from participants, on the strict basis of collecting only data required for registration purposes.

Cankarjev dom collects data under the European Union's guidelines on protection of personal data, concerning:

- the “right to be forgotten” – a participant can request the conference organisers to delete his/her information after the conference has concluded;
- easy access to one's data – a participant can request from the conference organisers a copy of his/her information;
- the right to know when one's data has been hacked – conference organisers commit to inform participants in the eventual case of data being hacked by someone;
- data protection by design and by default – files with participants' data are stored in secured computers, and the usual secure access procedures are followed.

For the purposes of organising the conference, statistically analysing the participants' data and creating user profiles for the conference application, your personal data (name, surname, organisation/company and e-mail address) will be electronically transferred to the conference organisers: Cankarjev dom and in case you chose to book accommodation to the chosen hotel for the purposes of booking your hotel accommodation.

Your personal data will be stored in a Microsoft Azure Cloud, a service used by Centium Software based in:

60 Brandl St, Brisbane Technology Park, Eight Mile Plains, QLD 4113, Australia. Cankarjev dom, Prešernova 10, 1000 Ljubljana, Slovenia, has the right to access and transfer the data. The data will be stored for 1 year after the conference has concluded, after which time anonymity of your data is guaranteed.

Your picture is used to collect your facial profile by our service provider, fielddrive, who powers the facial recognition technology. This data is used solely for improving the check-in experience and collecting your badge at the event using facial recognition technology. It serves no other purpose: no pictures are stored by fielddrive as they are discarded immediately upon submission, and all biometric data is deleted right after the event. Please also note that you may withdraw your consent to this service at any time before and during the event by simply clicking this link again to remove your biometric data.

Cankarjev dom reserves the right to amend the Privacy Policy, posted on the amendment date on the conference website and in the application form. You will be notified about the amendment by e-mail. In case you disagree with the amended Privacy Policy you are free to exercise your privilege of cancelling your account. Otherwise, the revised version is effective.
